"Where seeds of success are sown."

January 28, 2015

Dear Parents/Guardians:

Restorative Practices for Respectful Relationships "Restorative Justice" is one of our school's behavior support strategies which we have implemented here at Adjala Central P.S..

Restorative Justice aims to restore relationships and create a safe school environment for all students. The practice uses peer mediation, healing circles and group conferences as methods to address a wide range of issues: bullying, teasing, fighting, swearing, and conflict in general to name a few.

Fortunately, two of our teachers (Mrs. Poot & Mme. Poulin) received intensive training in the restorative practices and are certified in stages 1 and 2 as facilitators of Restorative Circles.

If you would like to know more about Restorative Justice, you can visit our school website for more information.

Sincerely,

Chris Russell
Principal
